

# BECOMING A TRUSTEE

## For Street Support Network

### WHAT DO WE DO?

Street Support Network connects people and organisations to support those experiencing, or at risk of, homelessness.

Our website is a central hub where people can find help locally, understand their options, and take action.

Behind the scenes, we're building the digital infrastructure that helps services work better together. We support local partnerships and co-produce practical tools.

### OUR NEXT CHAPTER

We're growing into a national infrastructure to help local homelessness systems work better together. Recently, we've launched tools like our Virtual Assistant and Data Volunteer programme. We're also working alongside combined authorities to explore how we can support them in the context of devolution and regional leadership.

This next phase is all about deepening collaboration, building sustainability, and designing smarter, joined-up solutions that help prevent homelessness before crisis hits.

### WHO WE'RE LOOKING FOR

If you're into collaboration, or understand system-level thinking, digital innovation or public sector strategy, this could be a great fit. If you've worked in local government, digital service design, community organising or social innovation, you might be exactly who we need.

We're especially keen to hear from people who bring:

- Digital Transformation: Experience in designing or delivering data-driven services
- Public Systems Insight: Understanding of local or combined authority structures
- Health and Housing Partnerships: Backgrounds in cross-sector or community-led collaboration
- Financial Strategy: Strategic finance or fundraising knowledge
- Lived Experience: First-hand insight into homelessness or housing insecurity

But don't let job titles or formal experience hold you back. We know that insight often comes from lived experience, frontline work, or a fresh way of seeing the problem. What matters most is what you can help us do next.

### WE'D LOVE TO CONNECT PEOPLE WITH SKILLS IN:

Financial  
sustainability

Digital innovation  
for good

Data and  
insight

Public sector  
strategy

Website  
development

Human  
resources

### WANT TO JOIN US?

If you believe in the power of collaboration to solve complex social problems, if you're passionate about using technology to serve humanity, and if you want to be part of reimagining how we end homelessness - please get in touch!

This is a voluntary role with monthly online meetings. If you're interested in joining us, please reach out to Matt at [matt@streetsupport.net](mailto:matt@streetsupport.net) for an informal chat about our vision and strategy.
