HOMELESSNESS CHARTER

We believe that every person experiencing homelessness in Derbyshire should have a right to:

Agency

Have their voice heard and a choice in their own future.

Respect

Be treated with dignity and respect.

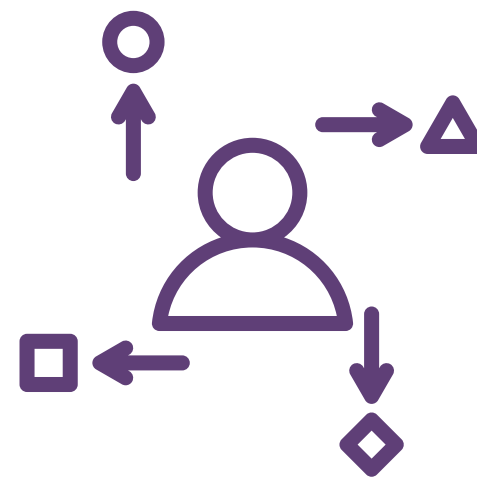

Home

A safe, secure and sustainable home.

We believe that all those who work with people experiencing homelessness in Derbyshire should be:

Adaptive

Take a holistic, person-centred approach to supporting people and their individual needs.

Collaborative

Encourage effective system-wide communication and collaboration to target early intervention.

Non-judgemental

Not penalise people for past mistakes, recognising that recovery from homelessness is not always linear.
